Aruba

The Social Heart of Luxury Touring

The Skyliner Aruba is built for connection and comfort, making it the perfect choice for couples and families who cherish time together on the road.

Its standout feature is the centrally located dinette, which links the front lounge and rear sleeping areas into one harmonious living space. This area doubles as a spacious double bed, allowing the Aruba to sleep up to six people in complete comfort.

Natural light floods the interior, reflecting off elegant cabinetry and stylish soft furnishings to create a bright, modern ambiance.

At the rear, the fixed French bed and adjoining en-suite with ambient lighting elevate everyday touring into a boutique hotel experience. Whether it's a family holiday or a couple's getaway, the Aruba is designed to bring people together in style.

Barracuda

A Lounge You'll Never Want to Leave

Effortlessly blending modern luxury with a warm, welcoming feel, the Buccaneer Skyliner Barracuda is a sanctuary on wheels.

The signature L-shaped lounge creates an intimate space perfect for relaxing, socialising, or enjoying a movie night on the 32" wall-mounted TV. As evening falls, the lounge transforms into a large double bed with ease, maintaining the van's versatility without compromising comfort.

The cleverly designed split washroom offers the best of both worlds—ideal for quick access during the day and perfect as an en-suite at night, thanks to its proximity to the sumptuous rear double bedroom.

Rich lighting, high-quality textures, and luxurious finishes come together to make the Barracuda a soothing retreat wherever your journey takes you.

Bermuda

Luxury Living with a Side View

The Skyliner Bermuda offers an exceptional blend of flexibility and luxury, making it ideal for couples or small families who want a truly refined travel experience.

Its sociable L-shaped lounge, set on the offside, offers generous space to unwind, dine, or entertain, and converts easily into a double bed for added sleeping capacity.

At the rear, the retractable transverse bed delivers superior comfort and can be tucked away to create additional space during the day, giving you more room to move and live. The split-style washroom ensures privacy and convenience without intruding on the van's elegant open-plan flow.

Modern lighting, tactile furnishings, and refined materials elevate the Bermuda's interior into a space that feels bespoke and thoughtfully curated.

Commodore

Elegant Flexibility, Day or Night

The Buccaneer Skyliner Commodore is the epitome of adaptable luxury, offering a layout that caters to both comfort and practicality.

At its heart is the innovative split washroom, which can be closed off from either end to provide a true en-suite feel or a guest-friendly day setup. The rear bedroom boasts a transverse island bed—retractable for increased daytime space—and luxurious ambient lighting to create a peaceful retreat.

Meanwhile, the front lounge is more than just a seating area: it transforms into two comfortable single beds or one supremely spacious double, depending on your needs. With its balance of style and smart use of space, the Commodore suits couples and small families looking to tour without compromise.

Cruiser

Spaciousness redefined.

Relaxing in the sumptuous lounge provides a full-length open and expansive view of the entire interior. A true wow moment!

The lengthy and sumptuous thick pile carpet expanse all the way through to the rear washroom gives a feeling of a 5-star luxury hotel suite.

Along this expanse your eyes are drawn to the beautiful cabinetry with under counter LED lighting and the rich use of downlighters giving an unmistakably Buccaneer ambiance.

As one luxury space flows effortlessly into the next, thanks to the flowing lines of the beautifully appointed interior, you can relax knowing wherever you are, you'll feel perfectly at peace.
